

ANCHOR RESPONSIBLY

ANCHOR ONLY IN THE SAND

The dark areas you see in the depth are, actually, a **protected seagrass** (*Posidonia oceanica*)

And **why** is it protected?

Maintains these
crystal-clear waters

Protects beaches
and provides sand

It is the cradle of
mediterranean
biodiversity

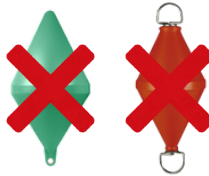

During your stay **remember:**

Use the marked buoys whenever available:

Correct buoy

These buoys mark
the boat channel

These buoys mark
the swimming area

Check before anchoring:

- **App Donia / Posidonia Maps:** locate seagrass meadows and safe anchoring areas.
- **Web viewer** (<https://ideib.caib.es/posidonia/>): map showing Posidonia distribution and authorised anchoring areas.
- **Posidonia helpline** (+34 617 975 172): available in season (June–September) for queries.
